

CHANGE THE WORLD

WITH A GIVING HEART

National Philanthropy Day 2017

National Philanthropy Day celebrates the charitable work that EVERYONE does to make a difference and create impact in their community.

At St. Francis Xavier Jesuit Parish and School, we are a faith-filled community, inspired toward the *MAGIS* as we work side by side with our parishioners, parents and volunteers. We are grateful to you -- our benefactors -- past, present and future.

Whether you're a donor or a volunteer (or both), regardless of how much you give, or what causes you to support us, what you do from the heart matters.

Though National Philanthropy Day is recognized only one day each year, we celebrate you today and every day. **We would not be at this moment in time without you.**
